Not illustrated. 1911 Excerpt: . to have been poisoned, because it seemed plausible that a certain amount of metallic nickel dust had accumulated in the bowels, and that some of it had passed through the intestinal walls or been dissolved by the action of the hydrochloric acid of the stomach. Richter failed to prove any nickel elimination in the urine with the spectroscope. The clinical S3Tnptoms were indefinite. T. P. Anderson Stuart<sup>6</sup> found that in the frog nickel, in its general action, causes darkening of the skin. The animal remains quiet and weak, with twitching of the muscles in progression and cramps. There are true tetanic attacks, like those in strychnine poisoning. Stupor sets in after voluntary motor paresis. After paralysis of respiration the heart ceases to 1 Experiment. Untersuch. Über die Wirkungen von Nickelsalzen, Inaug. Dissert., Bonn, 1883. 2 Tribune Medica, xx, 1888. 3 Arch. f. Hyg., ix, 1889,...

### Reviews

*It is an awesome publication which i actually have ever read through. it had been writtern really properly and valuable. I found out this book from my i and dad recommended this pdf to discover.*

-- **Doyle Schmeler**

*This book is definitely not simple to begin on studying but quite fun to see. I actually have read and that i am sure that i will gonna read through yet again once again in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.*
