EXTENSION OF TECHNOLOGIES: FROM LABS TO FARMS

New India Publishing Agency, 2008. Hardcover. Book Condition: New. The focus of technology development in agriculture in the last half of 20th century was to increase the production efficiency of the farm. For this, the Indian farmers should be updated with latest knowledge to compete for global marketing. They must have the right information at the right time which is possible through new information technologies resulted in many non-agricultural fields. In the world of Information of Communication Technology, the most...

Reviews

Complete information for publication enthusiasts. It is really basic but shocks inside the fifty percent of your book. I am just delighted to let you know that this is basically the finest book i have read through in my individual lifestyle and might be the best pdf for actually.
