Neuware - Sir George Cayley, 6th Baronet (27 December 1773 15 December 1857) was a prolific English engineer, one of the most important people in the history of aeronautics. Many consider him the first true scientific aerial investigator and first person to understand the underlying principles and forces of flight. Sometimes called 'Father of Aviation' in 1799 he set forth concept of the modern aeroplane as a fixed-wing flying...
